

THE SECRETARY OF THE INTERIOR  
WASHINGTON

**ORDER NO. 3417**

**Subject:** Addressing the National Energy Emergency

**Sec. 1. Purpose.** This Order implements provisions of President Trump’s January 20, 2025, Executive Order (EO) 14156, titled “Declaring a National Energy Emergency,” and will improve the energy and critical minerals identification, permitting, leasing, development, production, transportation, refining, distribution, exporting, and generation capacity of the United States to provide a reliable, diversified, growing, and affordable supply of energy for our Nation by making the fullest use of existing authorities, including emergency authorities.

**Sec. 2. Authorities.** This Order is issued pursuant to Reorganization Plan No. 3 of 1950 (64 Stat. 1262), as amended. Other authorities include, but are not limited to, EO 14156.

**Sec. 3. Background.** The integrity and expansion of our Nation’s energy infrastructure—from coast to coast—is an immediate and pressing priority for the protection of the United States’ national and economic security. It is imperative that the Federal Government puts the physical and economic wellbeing of the American people first.

Moreover, the United States has the potential to use its unrealized energy resources domestically, and to sell to international allies and partners a reliable, diversified, and affordable supply of energy. This will create jobs and economic prosperity for Americans forgotten in the present economy, improve the United States’ trade balance, help our country compete with hostile foreign powers, strengthen relations with allies and partners, and support international peace and security. We are currently engaged in an Artificial Intelligence arms race and meeting the power demands of this industry, which is literally manufacturing intelligence, is key to our national security. Accordingly, our Nation’s dangerous energy situation inflicts unnecessary and perilous constraints on our foreign policy.

The policies of the previous administration have driven our Nation into a national emergency, where a precariously inadequate and intermittent energy supply, and an increasingly unreliable grid, require swift and decisive action. Without immediate remedy, this situation will dramatically deteriorate in the near future due to a high demand for energy and natural resources to power the next generation of technology. The United States’ ability to remain at the forefront of technological innovation depends on a reliable supply of energy, critical minerals, and the integrity of our Nation’s electrical grid. Our Nation’s current inadequate development of domestic energy resources leaves our citizens exposed to brownouts, blackouts, and price spikes and our Nation vulnerable to hostile foreign actors and poses an imminent and growing threat to the United States’ prosperity and national security.

For these and other reasons, the President has declared a national emergency.

**Sec. 4. Directives.**

- a. All Bureaus and Offices of the Department of the Interior (Department) will identify the emergency authorities available to them, as well as all other legal authorities, to facilitate the identification, permitting, leasing, development, production, transportation, refining, distribution, exporting, and generation of domestic energy resources and critical minerals including, but not limited to, on Federal lands and the Outer Continental Shelf. Each such Bureau and Office will develop a plan for use of those authorities and submit those plans to the Secretary within 15 days.
- b. All Department Bureaus and Offices will identify all relevant emergency and other legal authorities available to them to expedite the completion of all authorized and appropriate infrastructure, energy, environmental, and natural resources projects within their jurisdiction to perform or to advance, including use of all authorities to facilitate the supplying, refining, transporting, and exporting of energy including, but not limited to, in and through the West Coast of the United States, the Northeast of the United States, and Alaska. Each such Bureau and Office will develop a plan for use of these authorities for the described purposes and submit those plans to the Secretary within 15 days.

**Sec. 5. Implementation.** The Deputy Secretary is responsible for implementing all aspects of this Order, in coordination with the Solicitor and the Assistant Secretaries. In the absence of a Deputy Secretary, the Assistant Secretary – Land and Minerals Management will carry out the responsibilities assigned to the Deputy Secretary in this Order.

**Sec. 6. Effect of this Order.** This Order is intended to improve the internal management of the Department and to assure implementation of the above-referenced EO. This Order and any resulting report or recommendations are not intended to, and do not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person. To the extent there is any inconsistency between the provisions of this Order and any Federal laws or regulations, the laws or regulations will control.

**Sec. 7. Effective Date.** This Order is effective immediately and will remain in effect until it is amended, superseded, or revoked, whichever comes first.

By removing such regulations, America’s natural resources can be unleashed to restore American prosperity. Our focus must be on advancing innovation to improve energy and critical minerals identification, permitting, leasing, development, production, transportation, refining, distribution, exporting, and generation capacity of the United States to provide a reliable, diversified, growing, and affordable supply of energy for our Nation.

THE SECRETARY OF THE INTERIOR  
WASHINGTON

**ORDER NO. 3419**

**Subject:** Delivering Emergency Price Relief for American Families and Defeating the Cost-of-Living Crisis

Sec. 1. **Purpose.** This Order implements the January 20, 2025, Presidential memorandum titled “Delivering Emergency Price Relief for American Families and Defeating the Cost-of-Living Crisis” (Cost-of-Living Memo) by ensuring that the Department of the Interior (Department) promptly identifies appropriate actions to cut red tape that will reduce costs for Americans.

Sec. 2. **Authority.** This Order is issued under the authority of section 2 of Reorganization Plan No. 3 of 1950 (64 Stat. 1262), as amended.

Sec. 3. **Background.** The Cost-of-Living Memo addresses the Biden administration’s destructive policies that inflicted an historic inflation crisis on overwhelmed hardworking families with the high cost of fuel, food, housing, automobiles, medical care, utilities, and insurance. It is critical to restore the purchasing power to the American family and improve our quality of life. To do this, President Trump has ordered Federal agencies to deliver emergency price relief, consistent with applicable law, to American people and increase the prosperity of the American worker.

The Department manages a number of programs and costly, lengthy regulatory processes that may unnecessarily increase costs for the American people, particularly related to energy. These programs must be immediately reviewed, and steps must be immediately taken to lower costs.

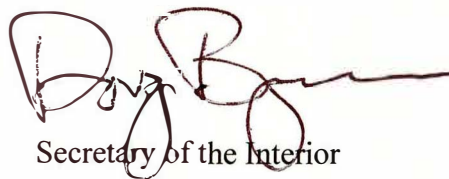

Sec. 4. **Implementation.** The Department’s Bureaus and Offices shall promptly conduct a review of their programs and regulations to identify those that may result in higher costs for the American people. While this review must broadly consider the effects of Departmental policies and decisions that directly or indirectly increase costs of housing, healthcare, and home appliances, it should particularly focus on coercive “climate” policies that increase the cost of food or energy. It shall also consider how to create employment opportunities for American workers, including drawing discouraged workers into the labor force. The Bureaus and Offices shall report the results of their review, along with recommendations for prompt action, to address identified problems within 15 days of the date of this Order.

**Sec. 5. Responsibilities.**

- a. Assistant Secretary – Policy, Management and Budget (AS-PMB): The AS-PMB is responsible for monitoring Bureau/Office compliance with this Order, compiling the Bureau and Office reports, and overseeing Bureau and Office implementation of future actions to lower costs.
- b. Heads of Bureaus and Offices: The heads of Bureaus and Offices are responsible for conducting the review required in section 4 and reporting the results. They will also be responsible for ensuring completion of any implementation actions, including modifications to Bureaus and Offices policies, procedures, or practices that are inconsistent with the goals of the Cost-of-Living Memo.

**Sec. 6. Effect of this Order.** This Order and any resulting report or recommendations are not intended to, and do not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its Departments, agencies, instrumentalities or entities, its officers or employees, or any other person. To the extent there is any inconsistency between the provisions of this Order and any Federal laws or regulations, the laws and regulations will control.

**Sec. 7. Effective Date.** This Order is effective immediately and will remain in effect until it is amended, superseded, or revoked, whichever occurs first.

On January 20, 2025, President Trump issued the Harmful Executive Orders EO, which, among other things, revoked the Biden Withdrawal Memos, to commence policies that will make our Nation united, fair, safe, and prosperous again.

**Sec. 4. Implementation.** Pursuant to this Order, all relevant Department Bureaus and Offices are notified that all Biden OCS withdrawals of the OCS for oil and gas leasing have been revoked. **ORDER NO. 3421**

**Subject:** Achieving Prosperity through Deregulation

Sec. 1. **Purpose.** The Department of the Interior (Department) is committed to the advancement of President Trump's deregulation agenda. Federal regulations have imposed massive costs on the lives of millions of Americans and restrained our Nation's ability to be a global leader in building the world's best economy. This Order implements the January 31, 2025, Executive Order titled "Unleashing Prosperity Through Deregulation" (Deregulation EO) to ensure that Department's Bureaus and Offices are focused on cutting all red tape to unleash America's economic prosperity, further national security, and achieve the highest possible quality of life for each United States citizen.

To accomplish this policy, the Deregulation EO requires agencies to identify at least 10 existing regulations to be eliminated for every new regulation promulgated. The Federal Government will return to the discipline of ensuring that the cost of planned regulations is responsibly managed and controlled through a rigorous regulatory cost analysis process.

Sec. 4. **Implementation.** Pursuant to this Order, all relevant Bureaus and Offices are notified that, for each new regulation that they propose to promulgate, they shall identify at least 10 existing Department regulations to be eliminated, and that the agency shall offset the total incremental cost of any new regulations, to the extent permitted by law, by the elimination of existing costs associated with at least 10 existing Departmental regulations. All Assistant Secretaries shall begin identifying and proposing existing regulations for potential elimination in anticipation that they plan to issue any new regulations, consistent with implementation guidance from the Director of the Office of Management Budget. The Bureau and Office Heads are responsible for communicating the contents of this Order to their staff and instructing their staff to follow this direction and to begin updating, as necessary, the relevant policies to reflect this change.

Sec. 5. **Effect of this Order.** This Order is intended to make Interior staff aware that President Trump has issued a policy agenda focused on deregulation, not regulation, and that it should be prioritized in fulfilling Interior's mission. Bureaus and Offices are to take all actions available to expedite prudent financial management and alleviate unnecessary regulatory burdens on the American people, consistent with applicable laws and regulations.
